Type: **Manufacturing**

Joinery Business for Sale

This joinery business has a long history of trading. It manufactures and installs a full range of cabinetry products, including kitchens, pantries, bathroom cabinets and more.

The business sells both commercial and domestic joinery products. It operates from a factory that is fully set up to produce just about any joinery product in house, and has edge banders, a panel saw, vertical and horizontal saws, forklifts, plus a variety of smaller equipment and tools.

Having traded for many years, this business receives a considerable amount of work through referrals and long-term trade clients. It also frequently wins new work through web marketing.

This business has sales of circa $1.2 million and profit to an owner operator of circa $128,000 per year.

This joinery business is being offered for sale at $200,000 plus stock, including all equipment and a truck. This represents a strong return on your investment!

If you have a Kitchen, Bathroom and Laundry Renovator license and would like to run your own joinery business, this could be just the business for you. It could also be a great acquisition for another business operating in the industry.

The location provided for the business is not exact and is indicative only. Images are stock photos and are not of the actual business.
