Heavy Vehicle Services Business for Sale Adelaide

For Sale

Location: **Adelaide**
Asking: **$600,000 + Freehold**
Type: **Services-Other**

Heavy Vehicle Services Powerhouse | $4M+ Combined Revenue, Specialist Workshop & Freehold Option

An established operation with the workforce, equipment and specialist capabilities already in place.

This is a rare opportunity to acquire a heavy vehicle services business that has traded for more than 25 years. Combining a specialist workshop with a complementary spare-parts division, the business generated approximately $4.05 million in combined FY2025 revenue.

It services commercial transport operators, fleet managers, mining contractors and owner-drivers. For an incoming owner, established industry operator or strategic acquirer, the appeal is clear: an experienced team, substantial specialist equipment, two trading divisions and the option to secure the associated purpose-built industrial freehold.

What Makes This Opportunity Stand Out

Two complementary divisions: specialist heavy vehicle workshop services and spare-parts supply.

An experienced workforce: qualified heavy vehicle technicians, workshop management and administrative support are in place.

Specialist technical capability: truck and trailer alignment, axle and suspension work, power steering repairs, induction heating, brake and tyre servicing, and general heavy vehicle maintenance.

Substantial equipment base: extensive specialist equipment supports a broad service offering.

Property flexibility: the purpose-built industrial freehold is available with the business or separately, subject to negotiation.

Established market presence: more than 25 years of trading and an existing customer base.

Retirement sale: Expressions of Interest are invited from qualified purchasers.

Financial Snapshot

Division

FY2025 Revenue

FY2025 Adjusted EBITDA

Seven-Month Result, Annualised*

Workshop

$2.88M

$463,960

Approximately $541,100 adjusted EBITDA

Spare Parts

$1.17M

$8,020

Approximately $74,300 adjusted EBITDA

Combined FY2025 revenue: approximately $4.05M.

*The annualised figures are extrapolations from a seven-month trading period, not completed full-year results. Figures are exclusive of GST where applicable and subject to verification. Adjusted EBITDA includes stated addbacks. Purchasers should assess ongoing management and owner-replacement requirements during due diligence.

Room to Build on an Established Foundation

An incoming owner could explore growth through a stronger online presence, online and trade-account parts sales, more formal fleet-maintenance agreements and broader reach into regional transport and heavy-industry markets. The existing solar installation also presents an opportunity to assess battery storage.

Expressions of Interest

Opportunities combining this level of trading history, specialist capability, established staff, two divisions and an optional industrial freehold are seldom brought to market.

This is a confidential retirement sale. Further information is available to qualified, genuine purchasers.

Enquire in the strictest confidence to request the Information Memorandum or discuss the opportunity.
