Business for Sale Description

Uniform Wholesale/Distributors Business for Sale Brisbane Asking: \$649,000+ SAV

- Established for the last 30+ years, this is the main market leader, being one of the largest & longest established of its kind. Actually, this has a rare combination of elements within this multi-brand uniform, work/corporate, sports and school wear plus promotional product importer, wholesaler/distributor & direct to business supplier. It subsequently enjoys the greater share of this growing local market of business clients and boasts being the preferred supplier to a very high number of schools/childcares etc.
- Receives high repeat orders from 90-95% (approx.) of its long-term business and government clients throughout the year. Includes government clients which are contracted and many franchise, corporate and multi brand, national companies who have remained decades long, loyal to this brand and business.
- This business is a high volume importer/supplier, having been the proud supporter and long-term provider to thousands of mainly school, government, and business clients. These clients have returned the favour, and have

continued making this business their preferred supplier.

- Able to provide lower prices than most in the market, yet produce high quality, and fast turnaround product orders. Having the ability to embroider in-house, or to outsource (on or offshore). It has an array of long term offshore suppliers, who provide finished products and logo design, including extremely low minimum order quantities.
- This business includes the transfer of multiple brands, and provides a relatively passive based investment, given that this owner has the freedom to invest part-time hours and mainly oversee this operation.
- Staff manage and are capable of completing the everyday client tasks, day to day.
- Includes a high volume reseller, and wholesale clientele.
- With this high number of schools being supplied, there is little wonder that this business sits at the top of the market, and has this large share of the total market, within this sector.
- Its business clients stretch across a large geographic area, and can provide an impressive product offering, to a diversity of industry clients.
- Drop ship your orders through suppliers, grow this and outsourced jobs. Providing you with profit, passively.
- This high net profit is being achieved without actively marketing to its extensive list of return order clients. Clients simply call or email in their orders, providing enough sales volume for this business and owner to revel in.
- Able to grow sales exponentially and quickly, without increasing overall operating costs, due to its reliable outsourcing & offshore supply network – proven over time.

Enjoy the security & passivity that comes from being on this quality business clientele's sole and preferred supplier list! \$649K+ SAV (\$50K – Sample Stock)
