Solar Installation with Large and Increasing Sales Business For Sale #3763

Business for Sale Description

Solar Installation Business for Sale Brisbane Asking: \$995,000 WIWO

The formula is right and the pedigree is long. This business operated as a local electrical services company for over 40 years and has pivoted that exceptional workmanship to now include the installation of solar energy and storage.

This expansion in direction has been a runaway success for the business which is now installing approximately 90-100 units per month into homes and commercial premises.

With turnover in the calendar year just passed at over \$3.4 million this business is a moving target with expectations to install close to \$6 million of solar units this year.

The business includes a fleet of installers and a force of well remunerated and professional sales people.

The business is headquartered close to the CBD on the south side of the river. It's growth and prospects for emerging markets in the area of renewable energy make it an exciting prospect for a new owner to continue to take to the next level.

Alternatively, its lean approach to business means that it would be an ideal candidate to merge onto another business in a similar field or that would like to branch into this area.

This well credentialed business is at an exciting stage of a reinvigorated development cycle. If you would like to find out more information you should provide a confidentiality agreement to the broker.

Price \$995,000 WIWO
