Type: **Services-Other / Franchise Resale**

Chemdry Franchise Available First Time in 30yrs

HUGE PRICE REDUCTION - WE WANT TO SELL!

We are offering the opportunity to purchase the Southside Chemdry Franchise.

The franchise area is based in Brisbane and covers the Logan / Redlands Council Area.

This is the first time that this opportunity has been made available as the owner has worked this same area for the past 32 years.

Their products include carpet and upholstery cleaning, stain removal, tile and grout cleaning, commercial services and home sanitising.

Leads for the business come from direct referral, head office marketing, existing customers and word of mouth.

With regular clients that include regular retirement homes, a major car yard, local schools, churches and also local agents, this enables you to set your 'core' clients, ensure they are well looked after and then expand the business.

Chemdry works on the principal of low Franchise Fees, great back up support and a strong training base for all representatives of the business.

Why stay in your PAYG when you can work for a well known brand, with constant leads and driver around meeting new customers?
