Rarely available, high profit business, in a small rural country town!

Andersens was founded in the late 1950s in the town of Gatton, where the head office and main warehouse remain to this day.

Andersens was founded on the principles of honesty, integrity and respect in all aspects of the business a philosophy which is still paramount today, and has earned them the reputation of being 'the respected name in floor coverings' for over 50 years. Andersens is a family friendly company.

With a high standard of service and ongoing commitment to their customers, Andersens is the preferred choice for floor coverings, both for first time customers referred to us by others, and repeat clients who appreciate the old-fashioned service principles.

Roma is a town, locality and the administrative centre in the Maranoa Region, Queensland. The town has a population of approximately 7,000 people

It is located 479 km west from Brisbane and 355 km west from Toowoomba.

Roma is the centre of a rich pastoral and wheat-growing district. The town was the site of Australia's first oil and gas discoveries.

Roma has a humid subtropical climate, which gets enough precipitation to avoid the semi-arid climate. Its location on the far south of the Carnarvon Range at an elevation of 299 metres above sea level means that it is cooler and wetter than the plains to the south and west, while being warmer and drier than areas to the north and east.
